

Sistemi di porte scorrevoli frutto dell'ingegneria di precisione per superfici Varia e Chroma, versatili e dall'ottimo design. Slide Exposed e Slide Exposed Curve con le larghe rotelle visibili consentono un sistema di scorrimento su parete di eccezionale fluidità per porte singole o a due ante contrapposte. Slide concealed, le velette in alluminio anodizzato nascondono un sistema di scorrimento su ruote di alta qualità che permette l'installazione su parete o soffitto di porte singole, a due ante contrapposte o sovrapponibili.

PANORAMICA SULLE SOLUZIONI

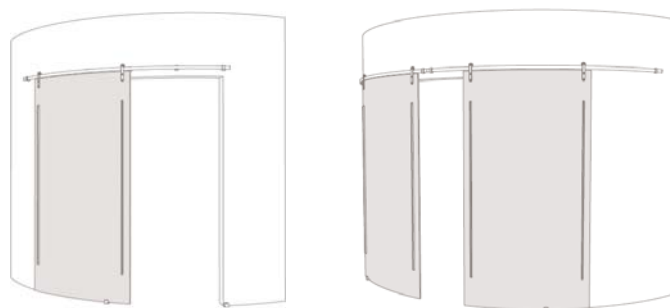

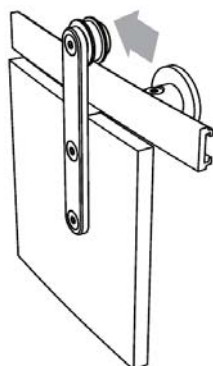

Il sistema Exposed, Exposed Curve e Concealed è studiato per l'uso con materiale Varia Ecoresin e Chroma con spessore da 12,7 mm e dimensioni di 3 m2.

SLIDE EXPOSED

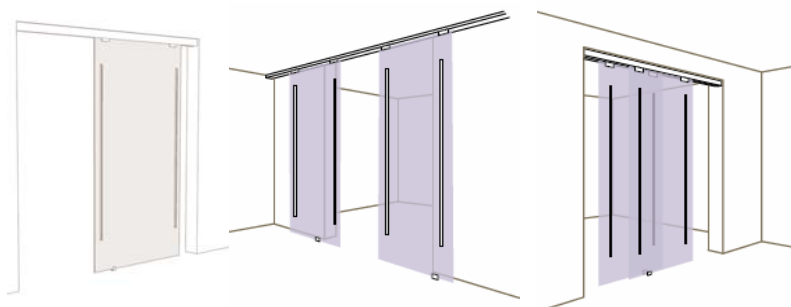

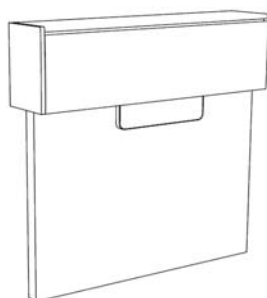

PORTA SINGOLA E PORTA A DUE ANTE CONTRAPPOSTO PER INSTALLAZIONE SU PARETE

SLIDE EXPOSED CURVE

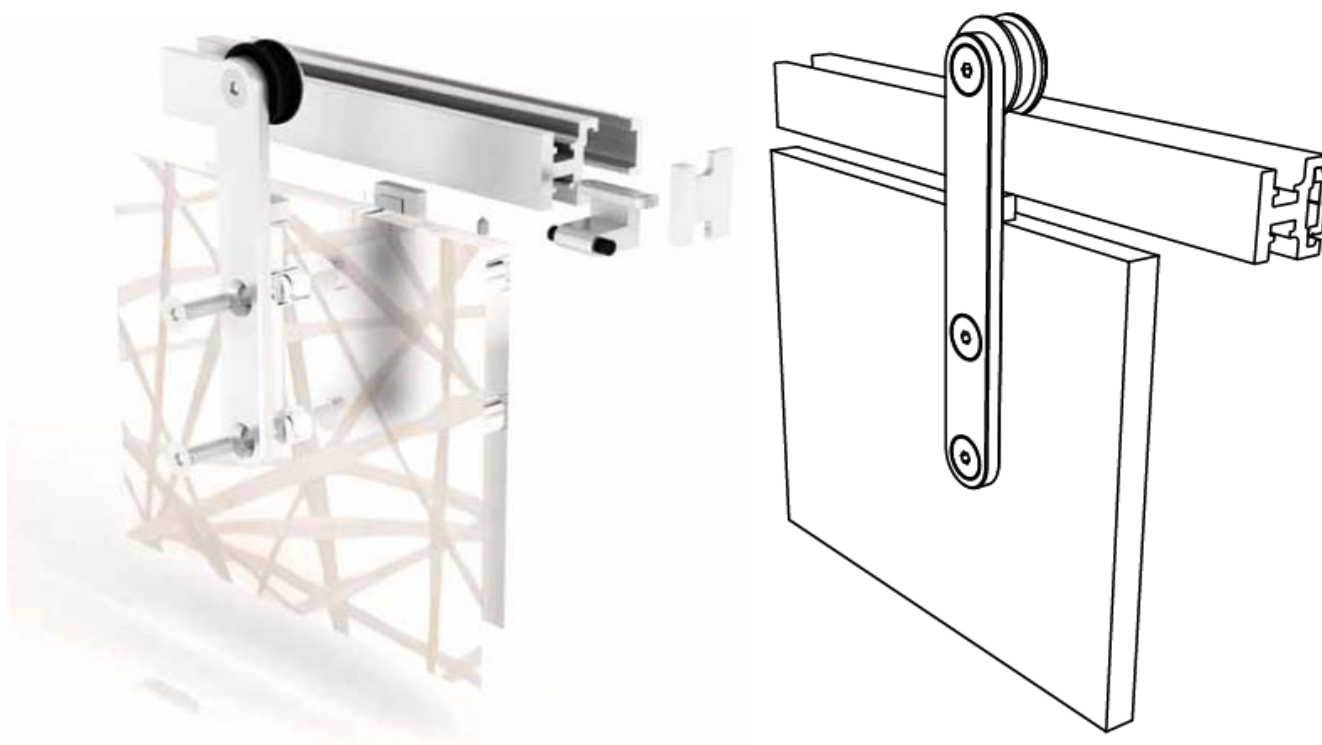

PORTA SINGOLA E PORTA A DUE ANTE CONTRAPPOSTO PER INSTALLAZIONE SU PARETE

SLIDE CONCEALED

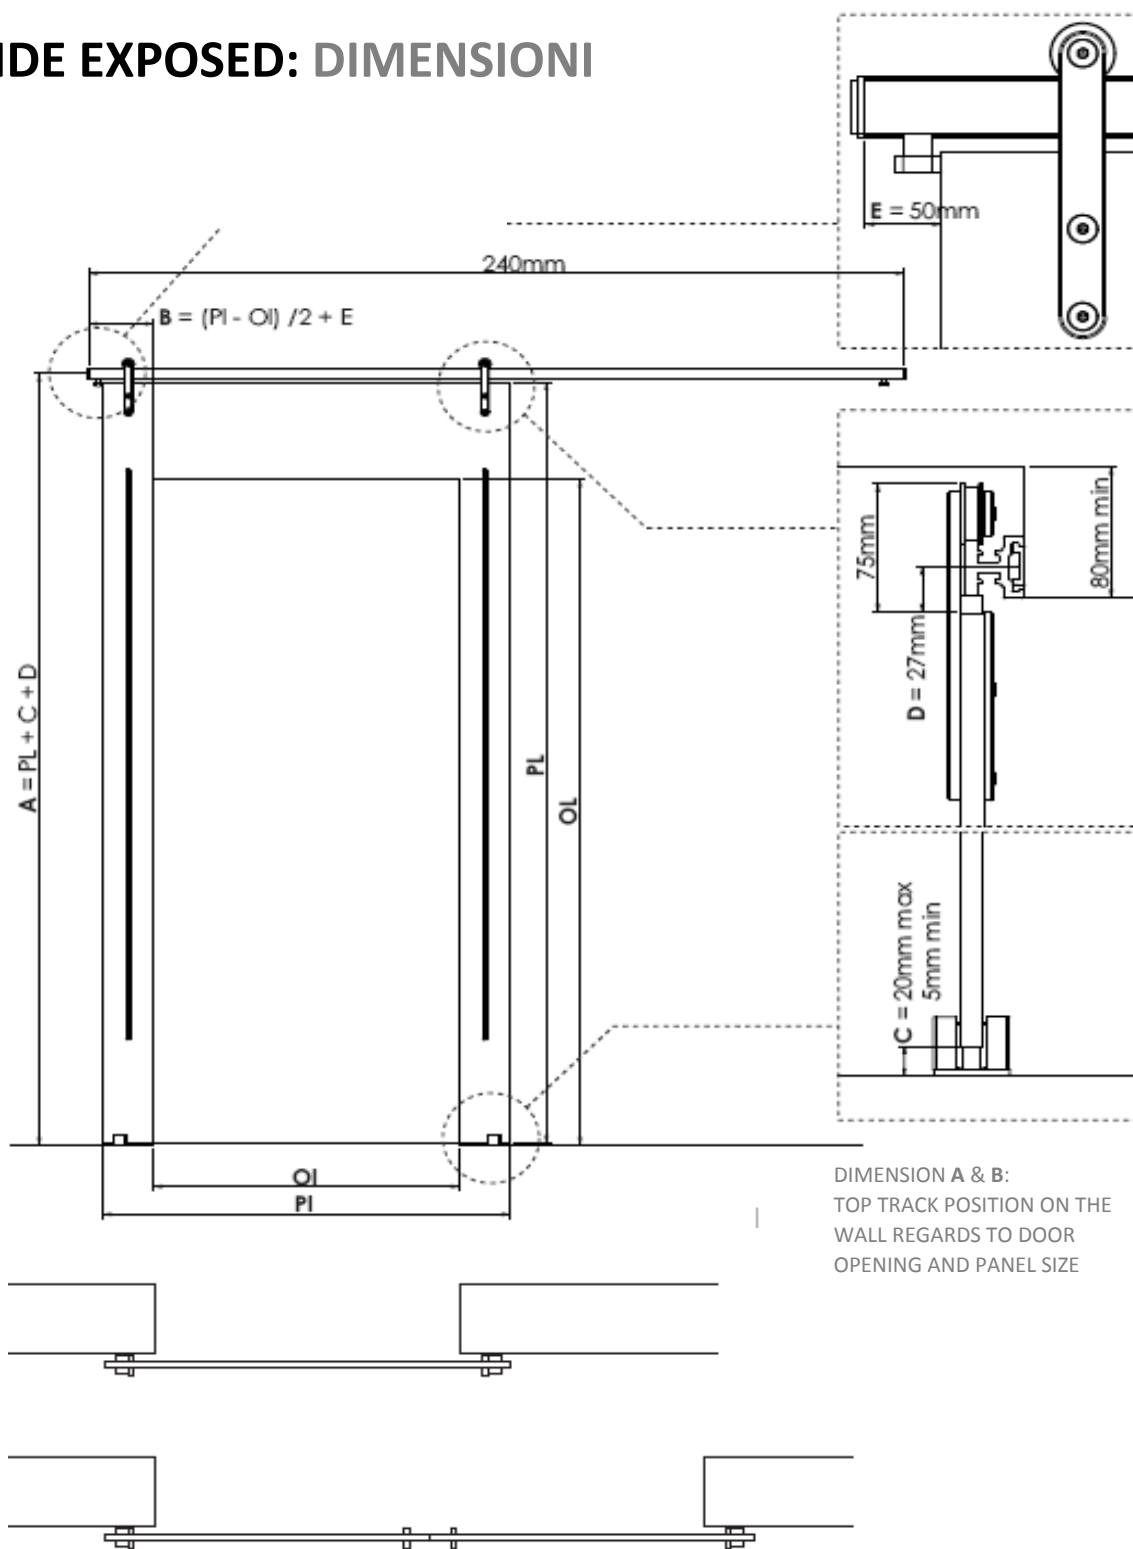

PORTA SINGOLA, PORTA A DUE ANTE CONTRAPPOSTO E PORTA A DUE ANTE SOVRAPPONIBILI PER INSTALLAZIONE SU PARETE O SOFFITO
